

FACTS YOU NEED TO KNOW ABOUT!

(These FACTS are for a business with 10 employees)

- Did you know that every time your network/internet goes down, the actual cost of it being down is between \$1000-8,000 per hour??
- Did you know 1 out of every 100 computers is infected with a Virus/Trojan and they don't even know it? (There are approx 1 billion computers on-line)
- Did you know the cost of your sales team's computer going down/not accessing their information; can cost a business between \$1000-\$30000 per issue?
- Did you know that companies using a TAPE backup solution, and have a company disaster will fail 9/10 of the time, and never recover from that disaster?
- Did you know that 90% of all companies, in every vertical market and under 10 employees, do not have a comprehensive data backup solution in case of disaster, and will never recover from that disaster because of it?
- Did you know that every single business will have 1 form of complete disaster of their data every 5 years(min), and will not recover from it and close their doors?

Are you covered for that disaster??

Call TVG Consulting NOW to see about how to recover those wasteful costs.
